

ATTENTION CITY OF CENTER LINE WATER AND SEWER USERS!

Recently, you may have received a letter from Service Line Warranties of America, which included the City Seal, address and Mayor David W. Hanselman's signature.

If you received this letter, please understand the following:

- ***Although the letter was dated after the passing of Mayor, David W. Hanselman, it received final approval from the City Administration prior to the date of his passing.
WE APOLOGIZE FOR THIS ERROR.***
- ***This program is endorsed by the NATIONAL LEAGUE OF CITIES, and WAS endorsed by the Center Line City Council on October 6, 2014, who felt it was important that residents have this option offered to them.***
- ***Although this program could have included royalties for the City of Center Line, the City Council insisted that any savings should be passed directly onto the water and sewer users who choose to have such warranty coverage.***
- ***Many underground water and sewer lines on private property in the City of Center Line are in excess of 50 years of age, and may become a financial burden to the property owners should they rupture, or be encroached upon by tree roots. Many times residents are burdened with cost exceeding \$3,500 per repair.***

-CONTINUED-

Please understand that the City of Center Line and National League of Cities endorsements **DO NOT** require your participation; nor are you required to purchase such warranties for water and sewer lines from Service Line Warranties of America.

The City of Center Line encourages you to research competitive pricing should you desire such warranty coverage.

For more information regarding Service Line Warranties of America, please go to www.slwofa.com; or call the City of Center Line City Manager at 586-757-6800.

Thank you.
